Annual Report 2022

“Recovery Happens Here”

Vision

A community that embraces recovery, wellness and mutual support. Where everyone is afforded opportunities to contribute and thrive according to his or her own desires and wishes.

Mission

We are a community of peers embracing recovery.

Letter from the Director

RI is growing and in a new much larger building, but it has been a rough couple years. We did not issue an annual report last year. I was unsure what to say. The pandemic was “over” but people were not really coming back. We felt a little heroic at first, having survived the pandemic, but months went by and our attendance stayed very low. We knew people were isolated and hurting. Acute care systems were being inundated and national surveys showed heightened levels of alcoholism, addiction, depression and anxiety. We wondered if RI was still relevant. We didn’t sit around waiting. The PoWeR Group hopped back in the van and resumed their presentations at local high schools and colleges. Soon, they averaged two presentations a week. We offered peer support and assisted with passing out donated goods to our unhoused peers. We spent four days a week in the public library helping our peers there. We’d see some new faces and some long lost friends would wander in and say “Hey, I didn’t know you guys re-opened!!” Some attended online and some in person. This was our 2021. Now you know. In July 2022 something shifted. People started telling their friends. There was a place to go where you could share your troubles. It felt better. We weren’t getting each other sick. People started coming back. July flowed into August and August into September. We had our 8th Annual Wellness and Recovery Festival. It was the biggest one yet. Volunteers started logging some real give back time and laughing with people who walked through our doors. By January, our monthly attendance hit 450, double what it had been in July. We had nothing to offer but free coffee and peer support, but that was enough and it was worth venturing out for again. Recovery is happening in Kalamazoo and it’s growing!!!
